HEMEROCALLIS

(Daylilies)

HEMKNOLL

Box 377
Whippany
New Jersey

1954

Welcome To Hemknoll

We are pleased to send you our Hemerocallis Catalog and think that you will find it interesting. Although we list about 200 varieties we do grow over 300 as well as many thousand seedlings of our own. Those that we do list are among the very best. We wish to sincerely thank the many customers that we have served in past years and hope to be able to serve each of you in the coming year.

CULTURE—Daylilies are among the very hardiest and easily grown of all perennials. All that we list are extremely hardy as we only cover our newly set plants the first year to prevent heaving. This is a good practice anywhere that freezing exists. Any sort of soil will grow daylilies, however, they do repay one's efforts in better bloom and growth if the soil is prepared with old compost or manures. Avoid low wet areas. Small amounts of fertilizer on established plantings twice a year is beneficial. Plant new plants with soil 2" above the well spread roots and firm well, then soak. They do best in full sun but can be planted wherever four hours of sunlight can be had. Watering at blooming time will increase size and improve color. When once established they need no moving for years.

SHIPPING—March 15 thru April 30 and August 20 thru November 15. I like to receive nice plants and I endeavor to send nice true-to-name plants. All are freshly dug, carefully packed with a permanent aluminum embossed label for every variety and accompanied by N. J. State Inspection Certificate.

TERMS—Cash with order. Orders of \$4.00 or over prepaid. Add 50 cents for packing and postage on orders for less.

PREMIUMS—Orders for \$10.00 to \$25.00 select 10% extra plants. Over \$25.00 select 15%. We always send something extra that we hope you will enjoy.

LEGEND: E—Denotes early bloom; M—Midseason bloom; L—Late bloom; Height in inches; *Varieties among the 1953 Popularity Poll selected by members of Hemerocallis Society for the 100 Most Popular, are marked with asterisk.

WELCOME—For those of you who can, we welcome your visit during July and August—the height of our season. Here you can see many too scarce for listing as well as our own seedlings. We are located near the Morris County Fair Grounds in Troy Hills, about halfway between New Jersey Highways 10 and 46.

Sincerely,

S. Houston Baker

GROUP 1

In this list are some of the older day lilies, but don't be misled because they are older, for some of the very best varieties are to be found here. Just to mention a few such as Caballero, E. W. Yandre, Patricia or Port—these and others are among my favorites.

They are inexpensive and can be planted in groups of 3 or more and will give established clump performance at once.

.Price:— 75 cents each. three plants of one kind \$2.00. No discounts

GROUP 2

Listed here are daylilies of recognized dependability, excellent for landscaping or mass planting. Priced to enable clump planting of 3 or more plants of a variety—so as to forestall the error beginners make of planting single scattered plants that result in loss of maximum garden values.

Price 50 cents each postpaid. Quantity prices on extra large plants.

(EXPRESS COLLECT) 3 of a kind \$1.00; 5 of a kind \$1.50. No Discounts.
